

May 7, 2018

Chairman and House Agriculture Committee Members,

As Founder of Puppy Mill Awareness of SE Michigan and Michigan Friends of Companion Animals, I urge you to oppose H.B. 5917 and H.B. 5916 for the following reasons:

1. **H.B. 5917 would undermine local laws.** In response to growing concern for the welfare of animals trapped in puppy mills, dog lovers have adopted two legal strategies to fight back: stricter laws for breeders (such as Michigan's Large Scale Breeder law) and local ordinances banning the sale of puppies in pet stores. The latter is what Representative Vaupel and the industry lobbyists who are behind these bills are trying to prevent. Over 260 localities across the nation have enacted ordinances preventing the sale of commercially produced puppies in pet stores. Some of these include: Cook County Illinois, New York City, the entire state of California and Maryland, and the Michigan cities of Eastpointe, Fraser, and New Baltimore.
2. **These are not animal welfare bills.** On the surface, they masquerade as animal welfare, pledging to protect puppies by guaranteeing that they are purchased from "USDA licensed breeders" with no current inspection violations. It sounds good on paper, but closer analysis reveals that this standard is nearly impossible to enforce.
3. **These bills would not require pet store licensing or inspections.** Michigan pet stores are not currently licensed or inspected by any agency.
4. **Local enforcement of the pet stores is not going to ensure breeders in distant states follow the highest standards when breeding.** The real problems lie at the commercial kennels and happen long before the puppies arrive in the stores. Poor breeding practices and lack of

veterinary care are two of the biggest problems that are not easily fixed with more regulations. In fact, puppies arriving into Michigan from the industry's new "showcase" kennels have many abnormalities listing on their health certificates, including generic issues as a result of poor breeding (see list below).

5. **Rep. Mike McCready (R) already updated Act 287 of 1969 PET SHOPS, DOG POUNDS, AND ANIMAL SHELTERS just last session.** The bill was championed by the Michigan Humane Society and supported by the Michigan Veterinary Medical Association and the Michigan Association of Animal Control Officers. The Michigan Department of Agriculture provided supportive testimony. The new regulations went into effect January 2017.

#### **Michigan's Humane Pet Acquisition Ordinance**

In 2015, I formed a coalition called Michigan Friends of Companion Animals to specifically address the problems our communities have with retail outlets where families can not see the conditions and meet the breeding parents (site unseen purchases). We have collected hundreds of complaints from families who purchased sick puppies. <http://mfca.yolasite.com/>

The owner of The Family Puppy, John Stottele, testified at the 05/02/18 House Agriculture Committee meeting stating "he was not aware of any complaints", yet we know this is not true. NBC 25 covered a story about a puppy that was purchased from the store with many health problems.

<http://nbc25news.com/news/local/puppy-mill-protestors-picket-pet-store>

*"The owner says he's worked with his breeders to ensure happy, healthy dogs. But one of his customers claims her new puppy*

*almost died three times.*

*This spring Davison Resident Linda Dahl bought Tegan, a Shiatsu Toy Poodle from The Family Puppy Store at the Genesee Valley Mall.*

*"So then the next day she got really sick, she kept going into these seizures and couldn't walk," said new puppy owner, Linda Dahl.*

*After six doctor TMs visits and more than \$1,000 in medical bills, Tegan is finally on the road to recovery.*

*Dahl says she complained to the store manager. "I called them out on it, and I said one, you sold me a sick dog, if she has an infection, there has to be other dogs in there with an infection, where did she get it from? And they couldn't give me an answer," said Dahl.*

The Family Puppy's breeders had serious direct violations to the Animal Welfare Act.

1) Marlin Bontrager, from Rome City Indiana, was The Family Puppy's top supplier of puppies. According to a federal inspection, Bontrager was caging 177 adult dogs and had two serious direct violations including not seeking veterinary care for a sick puppy. Suffering was prolonged by not taking the puppy to the veterinarian. In addition, the inspector also cited Bontrager for housing dogs in temperatures in the 90's. Dogs were observed heavily panting and puppies were stretched out on the wire floor trying to stay cool. Bontrager has a history of violations going back to 2008 related to housing, shelter, primary enclosures, cleanliness, feeding and vet care.

2) Devon Schrock, another of The Family Puppy's breeders, was cited for accumulations of grime and hair in the primary enclosures. This harbors diseases. In addition, Schrock's drainage system was cited as the upper washdown was draining into a pen on the bottom where two dogs were exposed. There was hair and sludge accumulating.

The owner of Petland did not testify last week, however there are two active lawsuits against his store located in the Twelve Oaks Mall in Novi, MI. Twenty-four plaintiffs are seeking monetary damages for breach of contract and multiple violations of the Consumer Protection Act. The puppies suffered from a range of issues, including

genetic defects, infections and some had highly contagious diseases, costing the plaintiffs thousands of dollars in veterinary care. The lawsuits also allege fraud, claiming the store and its owner knowingly sold animals with deformities and illnesses, as well as misrepresenting the origins of the animals.

**Petland sold sick, worm-infested puppies, lawsuit claims**

**Couple says Novi Petland sold them sick dog that had to be put down**

FOX 2 Detroit MAR 16 2018

<http://www.fox2detroit.com/news/local-news/couple-says-novi-petland-sold-them-sick-dog-that-had-to-be-put-down>

Link to "Ten Reasons Petland Novi is Michigan's worst store" blog  
<http://puppymillawarenessmichigan.blogspot.com/2015/03/top-ten-reasons-petland-is-michigans.html>

To protect families from these large-box stores, like The Family Puppy and Petland, I worked jointly with law enforcement in Macomb County to draft the Humane Pet Acquisition Proposal which was unanimously supported by the Macomb County and Kent County Commissioners. Both counties urged their local communities to pass retail bans and promote humane outlets.

The enormous success of local ordinances like mine across the country explains the secrecy, speed, and deceptive language of HB5916/HB5917. Michigan has a vocal, efficient, community of activists who have been tackling problematic pet stores for years.

#### **The new Petland Coalition was created to fight local bans**

In response to local and state ordinances banning the retail sale of commercial bred puppies, Petland formed a coalition in an attempt to improve the industry's image and fight local retail bans. They had to! Petland is losing the public debate, and the evidence against Petland is compelling. The Petland Mall of Georgia mentions a new coalition on their website:

*"That's why we formed a coalition to improve animal welfare and work in a collaborative effort with a cross section of the pet industry, including animal welfare organizations as well as the veterinarian and academic community.*

<http://petlandmallofgeorgia.com/petlands-puppy-health-wellness-policies/>

Who exactly is a part of this coalition?

1. Levi Graber (Blue Ribbons Puppies), Petland's broker.
2. Purdue University Center for Animal Welfare
3. Will Yoder (Blue Ribbon Puppies), consultant to Southern Iowa breeders.
4. Iowa Pet Breeder Association, Iowa Kennel Alliance Program (IKAP) linking many stakeholders such as AKC, breeders, brokers, and transport companies.

**There is no evidence that animal welfare groups are part of this coalition.**

Puppy Broker, Levi Graber (Odon, IN) owns Blue Ribbon Puppies and is no stranger to the puppy pet trade. He was featured in Channel 13's investigative story exposing Indiana's Puppy Pipeline in 2007. <https://www.wthr.com/article/indianas-puppy-pipeline>

Graber is a large stakeholder and he regularly speaks at city council meetings and state legislatures to fight off retail bans and regulations that would protect families from irresponsible puppy peddlers. <https://www.youtube.com/watch?v=D7HWllavJcY>

Graber was featured in a recent article outlining plans the pet industry had to improve its reputation.

**Amish aim to restore dog breeding rep (May 22, 2016)**

<https://www.democratandchronicle.com/story/news/college/2016/05/22/amish-aim-restore-dog-breeding-rep/84494938/>

*"When some people think of dog breeding in the Amish community, images appear of puppy mills full of unhappy and mistreated dogs.*

*Amish breeders in the state want to change that, and they're reaching out for help.*

*Commercial breeders from Odon — a Southern Indiana town with a large Amish population — are working with Purdue University's Center for Animal Welfare Science to establish breeding practices that make consumers and dogs happy."*

*"It was time that we as breeders recognize that there are professionals out there that can help us and we need to involve them in our businesses," said Levi Graber, a member of Odon's Amish community who helps several breeders in the area.*

Will Yoder, a consultant working for Blue Ribbon Puppies, helped coordinate efforts in southern Iowa. Yoder is featured in this recent article attempting to expose rescues for profiting off the industry. This attack was designed to deflect attention from puppy mill abuse.

<https://blog.humanesociety.org/2018/04/attacks-rescues-designed-deflect-attention-puppy-mill-abuse.html>

As part of this effort to improve their reputation, ten Iowa kennels were selected to be built, expanded or upgraded, and it appears Daniel Hochstetler (St. Joseph County, MI), also upgraded his facility and spoke at the initial committee hearing last week.

Iowa Kennel Name	Kennel Status
1) Cloveridge Kennels	2015 expanded
2) Daynes Ridge	
3) Hillview Kennels	2016 New
4) Howling Hill	
5) Oakridge Kennels	2015 new facility
6) Shadey Lawn	2015 updated
7) Shadow Valley	2015 updated
8) Stoney Creek	2015 new
9) That'll Do	2015 training lessons from AKC completed
10) Yoder Kennel	2015 new

Hochstetler did not mention his USDA violations, or how large his facility is. He was cited for expired medications and a poodle was observed with a wound on her shoulder. (USDA report attached). He also failed to mention which retail outlets he services.

Daniel Hochstetler's Adult Dog Inventory:

Inspection Date	# of Individual Licenses	Compared to USDA Inventory
2008	25	
2009	49	30
2010	44	62
2011	62	62
2012	58	60
2013		

**The kennel buildings might be new and spacious, but the puppies still have problems.**

While the few new kennels offer indoor/outdoor runs and play yards, there is still little oversight and no guarantee the puppies will be healthy. Some of these featured kennels shipped puppies to The Barking Boutique (Grandville, MI) with abnormalities listed on the Certificate of Veterinary Inspection.

Kennel Name	Veterinary Inspection Date	Abnormality Noted
Cloveridge Kennel	4/13/2017	Luxating Patella Grade 1 L Latfrol
	5/24/2017	Small open font. Open font
	6/8/2017	Moderate open font (all 3 dogs)
	8/31/2017	one of the three female cockapoo had mild underbite
	12/20/2017	Puppy 174655-04 has a moderate open font
	1/10/2018	Puppy 174656-06 has a mild open font
Oakridge Kennels	11/22/2017	Unilateral Crypt Orchid
	2/7/2018	Crypt orchid neuter done 1-31-18
Shadow Valley	Not provided	Left knee grade 5 patella not in trochlergroorse
	5/15/2017	Open Font ~ 3mm
	6/2/2017	Double inguinal hernial repaired Castrated, double inguinal hernia repaired
	7/13/2017	Underbite
	7/19/2017	Very small double inguinal hernia Unbilical hernial repaired by Dr. McClintock
	10/18/2017	Umbilical Hernia and double inguinal hernia
	10/25/2017	Umbilical hernia repaired by Dr. McClintock Castrated by Dr. McClintock
	11/1/2017	Neutered by Dr. McClintock had an abscess on right side of chest - healing

	11/8/2017	Right testical not fully descended into scrotum
	12/6/2017	Very small open font, left knee grade 2 patellar luxator, right knee grade 1 patella lux Umbilical hernia repaired by Dr. McClintock
	12/19/2017	Grade 1 right knee, small open font
	12/27/2017	Umbilical Hernia repaired Dr. McIntock, Umbilical Hernial repaired Dr. McClintock
	1/31/2018	Double inguinal hernia, open font ~ 4mm, extremely small underbite 1 mm
Walnut Ridge Kennel	1/3/2018	Puppy has a moderate overbite
Ervin Lee Mast	7/13/2017	Overbite
	1/17/2018	Grade 3 knees right and left
David Troyer	6/16/2017	Castrated by Dr. McClintock
	1/31/2018	Umbilical Hernia..small amount of fat on the outside.
Melvin Nisley	1/24/2018	Puppy had crypt orchid neuter done 1/10/18

### Michigan's Newest Puppy Store: The Barking Boutique (Grandville, MI)

It appears that The Barking Boutique (Grandville, MI), who was sitting front row at last week's committee meeting, is also following Petland's business model and featuring their "showcase" kennels on their website. This misleads families as to the true source of some of the puppies, as the store is actually sourcing from 40+ other undisclosed breeders with recent USDA violations.

Learn more about The Barking Boutiques' undisclosed breeders.

<https://thebarkingboutique.blogspot.com/2018/04/undisclosed-breeders.html>

Cloveridge is one of the "showcase" kennels that changed their name and business license for a clean inspection history.

### Many of The Barking Boutique's suppliers have violated the Animal Welfare Act...

The Barking Boutique used no discretion when choosing these breeders. Many of the suppliers have violated the Animal Welfare Act, yet the store ordered puppies from them anyway.

One breeder with violations, Shady Oak Frenchies owned by Jonathan Detweiler (Princeton, MO), housed 177 dogs in 2014 and was not disclosed on the store's website.

Link USDA photos. [https://www.facebook.com/pg/The-Barking-Boutique-Boycott-187567578487041/photos/?tab=album&album\\_id=187598225150643](https://www.facebook.com/pg/The-Barking-Boutique-Boycott-187567578487041/photos/?tab=album&album_id=187598225150643)

- A Golden Retriever was observed limping on his right front leg. Applicant said "he may have been in a fight." (April 23, 2013).
- Multiple Animal Welfare Act violations related to attending veterinarian and inadequate veterinary care program. (April 11, 2013)
- A Bulldog with a bottom jaw sticking out 2 inches more than her top jaw causing her tongue to stick out and be exposed, dry, wrinkled and reddened (April 11, 2013)
- Two adult Golden Retrievers were seen wet and shivering in the outdoor enclosures with no way of getting inside unless the breeder propped the door open. (April 23, 2013)

Another supplier of The Barking Boutique, Melvin Nisley of Seymour, IA, was cited for not having a complete program of veterinary care (April 2013). This kennel is not disclosed on The Barking Boutique's website.

Link to USDA photos. <http://www.nopetstorepuppies.com/dog-breeder/nisley-melvin>

The Barking Boutique owner stated he only works with breeders with no violations in the last two years – which is the new requirement outlined in HB 5916 -- yet breeder David Nisley (Drakesville, IA) was cited for a direct violation of the Animal Welfare Act in 2016.

Link to USDA records. [https://www.facebook.com/The-Barking-Boutique-Boycott-187567578487041/photos/?tab=album&album\\_id=187596321817500](https://www.facebook.com/The-Barking-Boutique-Boycott-187567578487041/photos/?tab=album&album_id=187596321817500)

- **DIRECT VIOLATION:** A Boxer was extremely emaciated, very little fat covering her frame causing her flanks to sink behind her rib cage. (August, 2, 2016)

## Inspection Report

Type: ROUTINE INSPECTION

Date: Aug-02-2016

**Direct violations in  
the last two years.**

2.40 (b) (2)

DIRECT NCI

### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Female Boxer ("Nelle", tag #122) appears extremely emaciated and her flanks are sunken behind her rib cage. Physical inspection of the dog revealed there is very little fat covering her body frame. Her shoulders, back bone, ribs and hip bones were easily felt and her ribs were clearly visible beneath her hair coat. This dog has a litter of 8 two week old puppies that she is nursing. The licensee stated that he has not consulted with a veterinarian about this dog's condition but has increased her food rations. An emaciated body condition could be an indication of an underlying health condition and if left untreated could be detrimental to the dog.

This dog must be evaluated by a licensed veterinarian for proper diagnosis of her condition and to develop an effective treatment plan. The diagnosis and treatment plan must be documented in writing and available to the inspector upon request. The licensee must ensure that all dogs receive adequate veterinary care at all times.

To be corrected by: End of business August 04, 2016

A bottle of expired Velericyn pink eye spray was found in the medicine cabinet within the dog kennel. The Velericyn had expired February 2015 and the licensee stated that it had been recently used to treat a dog. Expired medication may lose their effectiveness and the health of the dog could suffer.

The use of expired medical materials such as drugs, fluids, or sutures on regulated animals is not considered to be acceptable veterinary practice and does not constitute adequate veterinary care. The licensee must either dispose of the expired Velericyn, remove it to a location separate from the current medications or appropriately label the Velericyn that it is expired and not to be used on the dogs. The licensee must ensure that all medical material used for the dogs is current and has not expired.

To be corrected by: The licensee removed the expired Velericyn at the time of the inspection.

Exit interview conducted with Kelly Maxwell, ACI and the facility representative.

Learn more about all the store's breeders on The Barking Boutique Boycott website.  
<https://thebarkingboutiqueboycott.yolasite.com/Bad-Breeders.php>

Unless all breeders make huge investments and agree to higher standards, these kennels will simply be used as "showcase" kennels while the pet stores continue to source from sub-standard breeders.

Michigan pet store owners, local law enforcement and the MDARD have no control or oversight of USDA commercial breeders --the only way to protect families to end the puppy mill pipeline to our communities.

Please do not support these bills which would overturn all the progress we have made to protect families and pets from the cruel pet trade.

Thank you for your time in this matter.

### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

(b) Each dealer or exhibitor shall establish and maintain programs of adequate veterinary care that include:  
(2) The use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries, and the availability of emergency, weekend, and holiday care.

There is expired Oxytocin, dated 2/08, and Pyrantel, dated 8/09 that are currently being used. The two previously mentioned drugs, plus Safeguard do not have any directions for appropriate use, and dosage from the veterinarian. There is also a white poodle in the third cage from the end on the right side that has a small wound on its shoulder

Each dealer shall establish and maintain programs of adequate veterinary care that include the use of appropriate methods to prevent, diagnose and control disease and injuries.

Please have your veterinarian write the use and dosages for the drugs on hand, only use drugs that are current, and have the veterinarian evaluate the poodle for appropriate treatment.

To be corrected by August 6, 2010.

Inspection and exit conducted with the licensee.

This is an amended report for inspection id 210101656250512 to add the exit briefing statement.
